Conf. No.	:	
Docket No.	:	NOOT 8500U1

Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

PETITION TO WITHDRAW HOLDING OF ABANDONMENT

Applicant, pursuant to 37 CFR 1.181 and MPEP 711.03(c)(I), hereby petitions the Director of Patents to withdraw a holding of abandonment in the above-designated application.

Briefly, the Patent Office examiner to whom the application is assigned on September 30, 2004, called the undersigned attorney and inquired if the applicant had intended to allow the application to lapse into abandonment for failure to respond to an office action. The undersigned attorney stated that he was unaware of the office action and checked the file and computer records to see if the office action had been recorded against the application. No trace of an office action appeared, and the examiner was so

I hereby certify that this correspondence is being forwarded by facsimile transmission to Examiner Gregory Wilson, U.S. Patent and Trademark Office at (703)-872-9306 on October 5, 2004.

Petition to Withdraw Holding of Abandonment/October 5, 2004

informed. The examiner referred the undersigned attorney to MPEP 711.03(c) and suggested proceeding in accordance with the guidelines set forth in it. Accordingly, applicant submits the petition – Indeed, directly to the examiner as he requested.

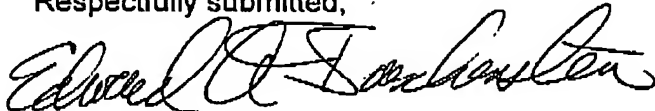

The Declaration of Edward A. Boeschenstein submitted herewith recites the facts in more detail and provides the evidence required by MPEP 711.03(c)(I)(A).

Interestingly enough, on June 17, 2004, applicant submitted a Supplemental Information Disclosure Statement, and one of the justifications for submitting it without a fee was that it was submitted before the first action on the merits.

According to MEPEP 711.03(c)(I)(A), this petition does not require a fee. However, if indeed one is necessary, the Patent Office is authorized to charge it against Deposit Account No. 162201. Also, having never received the office action, applicant is not at this juncture in a position to respond to it.

Favorable consideration of this petition and dispatch of the office action are respectfully requested.

Respectfully submitted,

Edward A. Boeschenstein

Conf. No.	:	
Docket No.	:	NOOT 8500U1

DECLARATION OF EDWARD A. BOESCHENSTEIN

Edward A. Boeschenstein declares as follows:

1. I am an attorney registered to practice before the United States Patent and Trademark Office in connection with the prosecution of patent applications. I practice law with the law firm of Polster, Lieder, Woodruff & Lucchesi in St. Louis, Missouri, having been a partner in that firm at all times relevant to the matters discussed in this declaration.

2. On October 4, 2002, I filed on behalf of Joseph E. Schroeder and his employer, Nooter/Eriksen, Inc., U.S. provisional patent application 60/416,083 for a "Once-Through Evaporator with Twisted Tape Inserts". Later I prepared and filed the above-designated nonprovisional application which derives priority from the provisional application, having dispatched that nonprovisional application to the U.S. Patent Office by Express Mail on October 2, 2003.

On September 30, 2004, Examiner Gregory Wilson contacted me by telephone and inquired if I had intended to allow the application to lapse into abandonment. Having not recalled any instructions from Nooter/Eriksen to

I hereby certify that this correspondence is being forwarded by facsimile transmission to Examiner Gregory Wilson, U.S. Patent and Trademark Office at (703)-872-9306 on October 5, 2004.

DECLARATION OF EDWARD A. BOESCHENSTEIN

abandon any of their applications, I expressed surprise. I promised to investigate the matter.

4. I reviewed the file for the application, the file for the provisional application, and the file for the corresponding PCT application and could find no office action or any reference of one. I further checked the computer records maintained by the law firm and still could not find any reference to an outstanding office action.

5. I addressed the matter to Christine Schill, a paralegal employed by the firm to handle matters concerning patents, and asked her if she could locate any reference to an office action in the computer records of the firm. She could not, but using the private PAIR system maintained by the Patent Office she discovered that the Patent Office had issued an office action on March 29, 2003.

6. If the firm had received the office action and if the office action required a three-month response, June 29, 2003, would have been entered into the computer records of the firm as the date for responding to the office action without a surcharge. A computer docket report showing all patent-related matters in the firm that required attention on June 29, 2004, is attached hereto as an exhibit. It bears no entry relating to the application on June 29, 2004.

7. Ordinarily the firm does not request status reports on applications that have remained pending for less than a year.

8. All statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true. These statements were made with the knowledge that willful false statements and the

like so made are punishable by fine or imprisonment, or both under section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
